Kick up your LUCK

Players will seek four-leaf fortunes in Charms Full Link™, an original linked progressive slot series by Konami Gaming, Inc. The first to combine an All Aboard-style credit collection feature with a triple bonus mechanic, Charms Full Link uniquely pairs the popular prize feature of All Aboard™, with a mix of bonus adventures found in games like Dragon's Law Fortune™ and Lucky Honeycomb Fortune™. The series' rainbow of colors and sparkling animations are also highly attractive, and made even more inviting by cartoony leprechaun characters.

GAME PLAY

With a rainbow variety of bonus events, Charms Full Link is a must-see Konami slot series. Its signature Charms Full Link Feature combines an All Aboard-style credit collection event with a triple bonus mechanic to offer several entertaining credit collection adventures in one game. Throughout primary play, Gold, Green, Red, and Blue Coin symbols appear across the reels. Any 6 or more Coin symbols trigger the Charms Full Link Feature, where players can unlock different bonus mechanics based on which Coin colors they collect, such as bonus spins and bonus reel frames. In addition, there's a bonus Lucky Kicker Reel that gives players the chance to win bonus collections on all displayed prizes.

Charms Full Link Feature

Whenever 6 or more Coins of any color are collected, the Charms Full Link Feature is awarded, populating a bonus reel frame in the style of Konami's player-favorite All Aboard. Three spins are awarded at the start of the feature, resetting anytime a Leprechaun symbol lands. All reel positions are independent, containing only Leprechaun symbols and blank spaces. For any spin that results in a Leprechaun symbol, all displayed credit prizes are collected. After, the Leprechaun symbol transforms into a random prize symbol, the feature continues. Coin symbol amounts scale by denomination. Based on the colors of the Coins that triggered the feature, players can unlock any combination of the following bonuses—up to all three at once!

Charms Full Link Feature

Extra Spins Feature

If a Green Coin was included in the Charms Full Link trigger event, then the player is awarded 4 spins at the start of the feature, instead of the typical 3 spins. In addition, any time the spins reset during the Extra Spins Feature, it resets at 4 spins rather than the typical 3 spins.

Double Games Feature

If the Charms Full Link Feature trigger includes a Red Coin, then the Double Games Feature is awarded and an entire bonus reel frame appears overtop the primary reel frame. The Coins that triggered the feature are copied to the bonus reel frame, after which, the differing frames spin independently with separate random prizes and number of available spins. Should one reel frame complete before the other, it is held static until the other is completed—at which time the combined final feature celebration takes place for both reel frames.

Lucky Kicker Feature

Players who trigger the Charms Full Link Feature with a Blue Coin will enjoy the game's Lucky Kicker Feature. The Lucky Kicker is an additional independent reel position outside the standard reel frame. Similar to the standard reel frame, the Lucky Kicker reel only contains Leprechaun symbols and blank spaces. This space allows players to collect additional prizes and additional spin resets during the feature, to help increase the play time and payout of the event. If the Lucky Kicker and Double Games Feature are both awarded, then the player will have two Lucky Kickers—one for each reel frame.

GAME PLAY (CONTINUED)

In addition to the triple bonus features, players can also win jackpot awards during the Charms Full Link Feature, including the following:

Bonus Coin Awards

Grand Jackpot Award

Bonus Coin Awards

Throughout the feature, standalone bonus awards for Mega, Major, Minor, and Mini can appear randomly on the Coin symbols, for the chance to win bonus prizes again and again throughout the feature. Bonus award amounts scale by denomination.

Grand Jackpot Award

If any reel frame is filled across all 15 reel positions during the Charms Full Link Feature, then the Grand Jackpot is awarded. Players can even win two Grand Jackpots if the Double Games Feature is active and both reel frames are filled with prizes. The Grand Jackpot can also be awarded randomly anytime during primary play. The Grand Jackpot reset value can be set at \$10,000, \$5,000, or \$2,500, according to operator preference.

Charms Full Link is available with two debut base games, which can combine under the same 1-level link.
